Profile

A reliable and detailed oriented web developer with a passion for building accessible, responsive web applications. Recognized for strong communication, patience, adaptability, and technical creativity, I am a proactive problem solver who enjoys writing clean, maintainable code. Seeking to join a dynamic organization where I can leverage my skills, education, and experience to support efficient daily operations, enhance client satisfaction, and contribute to business growth and organizational success.

Experience

Self-Employed Contractor
Digital Accessibility Practitioner (Contract with Fable Tech Labs), September 2025 – PRESENT

- Support corporate clients by reviewing and enhancing digital accessibility training courses to improve usability and compliance with accessibility standards.
- Produce, edit, and maintain product demonstration videos showcasing accessibility tools, including axe DevTools, Android TalkBack, and Android Accessibility Scanner.
- Develop and update instructional content, including component accessibility lessons, video descriptions, and supporting learning materials.
- Design and build mock application platforms using Bubble.io to test accessibility features and demonstrate real-world user experiences.
- Manage and resolve project tickets through Jira, ensuring timely completion of assigned tasks while collaborating with cross-functional teams.

Dental Growth Strategies, H-Cube Marketing
Web Developer, May 2022 – July 2024

- Built and maintained websites for dental and wellness practices.
- Designed sites when no web design was provided by client.
- Worked in various code contexts to meet evolving needs including HTML/JavaScript with Firebase hosting, an in-house PHP framework, and WordPress.
- Converted old WordPress sites to the preferred frameworks.
- Fixed site problems reported by SEM Rush, PageSpeed Insights, WAVE (Web Accessibility Evaluation Tool), and our Client Account Managers.
- Used Monday.com to receive and update the status of tickets.

Freelance Web Developer
Client: Evangeline Gentle, Musician, 2022

- Rebuilt a lost website and created a new custom WordPress theme with the original look. Efficiently got client back up and running.
- Implemented page, post, archive templates, primary and mobile navigations, widget area, functions.php etc.

Client: Public Energy Performing Arts Inc., 2021

- Performed web accessibility remediation and audits to meet WCAG 2.1 Level AA standards.
- Colour contrast checks and fixes.
- HTML refactoring for semantics.
- Ensure no missing alt attributes on images.
- Tested and fixed mobile responsiveness.

- Tested and improved screen reader and keyboard navigation.

Market Hall Performing Arts Centre Inc.
Marketing Coordinator and Box Office Manager, June 2013 - March 2020

- Setup ticket sales in online box office system TicketWindow for clients booking the venue for their events.
- Provided customers positive, helpful experiences as the first point of contact for customer service/sales in person, and by phone/email.
- Edited web content up to date feature new events.
- Assisted with event organization and operations.
- Created promotional posters and marketing materials.
- Kept the Board of Directors and key stakeholders updated with sales and event reports.

Aditya Birla Minacs
Technical Support Agent, November 2007 – November 2008
Performance Coach, November 2008 – August 2009

- Provided inbound phone support for Apple portable and desktop computers.
- Hired as a Performance Coach after 1 year.
- Completed call evaluations and follow up coaching for a team of 10 agents.
- Helped agents overcome difficulties with customer interactions, troubleshooting, and procedures.
